I authorize payment directly to Rebekah Guy, MD, doing business as Beacon Pain Clinic, for all charges for medical products and services. I understand that I am financially responsible to Dr. Guy for all charges that are billed to the insurance company. I further understand that medical decisions are made between the doctor and the patient. Some insurance companies might call some treatments “medically unnecessary” without regard for what the doctor and patient have decided upon. Some procedures we perform, while proven to be safe and effective and considered “experimental” by insurance companies are not covered. I authorize Dr. Guy to provide information, including my medical information, to the insurance company and to discuss our treatment plan. I understand that I am responsible for these charges if the insurance company denies my claim for any reason. I understand that it is my responsibility to verify if my insurance will cover my procedures or services rendered. If I am a Medicare patient, I will be told in advance if a service or procedure is known not to be covered and will submit payment at the time of service or procedure. I hereby request that the payment of authorized benefits for services rendered or in my behalf by Dr. Guy, be made to the provider. I authorize any holder of medical information about me to release it to the healthcare financing administration, my insurance carrier or its agents, any information (in compliance with HIPAA and other regulations) a required to determine these benefits or the benefits payable for related services.

Beacon Pain Clinic Controlled Substance Agreement

The purpose of this agreement is to protect your access to controlled substances and protect our ability to prescribe to you. Please initial by each line 1-13.

____If this line is checked, I do not want controlled prescriptions. However, if I ever get controlled medications I agree to these provisions.

____1. I understand that my provider and I will work together to find the best treatment for my pain. To achieve this goal this office is willing to prescribe controlled substances. The goals of this treatment is to reduce my pain in order to improve my ability to function, but may not completely eliminate my pain.
____2. I understand that I am responsible for my medications. I will take measures to secure them to prevent possible theft. If the medications are lost, stolen, or misplaced, **regardless of the reason.** I understand that my medications will **NOT** be replaced or refilled and I risk being discharged from Beacon Pain Clinic.
____3. I **will not** request or accept pain medications from any other physician or individual while receiving medications from Beacon Pain Clinic. I understand by doing so I could be endangering my health and it is illegal. Exceptions will be made if I have DISCUSSED THEM WITH DR. GUY or while I am admitted to the hospital.
____4. Use of prohibited substances can interfere with my opioid therapy and cause adverse effects. Therefore, I agree to notify my provider of the use of all substances: to include marijuana, alcohol, and illicit drugs. I understand that I should not be using these substances while on opioid therapy and by doing so I risk being discharged.
____5. Medication changes will **NOT** be made over the phone. Changes in my medication will require a doctors visit so I can be re-evaluated. **I will not dispose of unused medications. I will bring in all medications in their original containers to every appointment.**
____6. I will take the medication at the dose and frequency prescribed by my provider. **I understand that I am NOT to increase the dose of my medication.** By doing so I may no longer receive controlled substances from my physician.
____7. I understand that prescriptions may take up to 72 hours to refill. I will be responsible and plan accordingly in order to get my refills on time and will also plan for weekends and holidays so as I will not run out of my medication. Same day requests or walk in requests will NOT be honored or filled.
____8. I understand that opioids have common potential side effects that include: constipation, sweating itching/rash, and allergic reactions. Drowsiness may occur when starting or increasing the dosage. I understand this and agree to refrain from driving a motor vehicle or operating machinery until drowsiness subsides.
____9. I agree to random drug testing by my physician to monitor my compliance with proper medication use. I waive certain privacy rights so that my physician may talk to other healthcare providers, family members, and even law enforcement officials. I also agree to come into the office when asked to and submit to a drug screen or produce unused portions of medications to verify they are being taken correctly.
____10. I understand that I can become dependent on opioid medications, which in a small number can lead to addiction. If addiction occurs my physician will discontinue the medication and I will be referred to a drug treatment program.
____11. I understand that some persons develop tolerance, which is the need to increase the dose of the medication to achieve the same level of pain control. I also understand that I may become physically dependent on the medication and stopping the medication suddenly my cause serious withdrawal symptoms.
____12. I understand that all controlled substances are my responsibility and I am not to give them to any other persons for any reason. If I do my physician may no longer prescribe controlled substances to me and may also lead to discharge from the clinic.
